Market Temper Bullish, But Profit-Taking Brings Slight Recessions--- Some Strong Spots

NEW YORK STOCKS ACTIVE EARLY. BUT BECOME VERY DULL. SOME STRONG SPOTS.

NEW YORK, sept. 30.-2 p. m.-Mar- TODAY'S SALES ON ket remains just about the same as it was at 1:20 this afternoon. The volume business shows no enlargement and price changes are insignificant.

NEW YORK, Sept. 30.-There was onsiderable activity and much strength in the list during the first hour, another wave of profit taking, and a general tback to almost the closing prices of yesterday in the second hour of the morning session. The seggregation story is in every office and accentuated with predictions of 250. The story is current again that E. H. Hawley is to come into the place made vacant by the passing of Mr. Harriman-Hawley, the fighter, Hawley who cared not with whom he clashed.

Hawley has said that Chesapeake and

COTTON SOFT EARLY: LATER RECOVERED

NEW YORK, Sept. 30,-Reflecting poo Liverpool cables, the cotton market opened easy, off 3 to 7 points, but at the call the list held quite steady in spite of pressure from the bears, as there was considerable buying for outside account through commission houses. The pur-chasing was partly for Chicago interests and was induced by further assurances that Patten had not sold any of his coton. Business is fairly active. Later short gains were recorded.

Hawley has said that Chesapeake and Ohio was going much higher. Probably he saw to it that it did Others followed, and the stock moved up from a close on Wednesday at 86% to 89%, with a reaction to 83%. It was also announced definitely that the Chesapeake and Ohio had acquired control of the "Big Four" from the Vanderbilts.

Atchison rose to 124% from a low of the morning at 122% on the excellent statement of the fiscal year, and the promise of 6 per cent dividend that it seems to confirm. The fact that 14.28 per cent has been earned on the common stock is a bull card.

There was not a man among them who did not vote it a tremendous success, and the most satisfying test ever made. It was to be noticed many friendships were engendered on the run, and the drivers spoke in the highest terms of one another and of the conduct of the run. As one man put it, "the driving was the cleanest I ever witnessed, and I have been at the wheel in every tour of consequence for several years."

This sentiment was general. Many of the drivers were the subject of some quiet, complimentary reference or other, from the men who had been their rivals.

The crowd at the garage dispersed slowly. The men who were first to go through the technical examination waited around and talked until the last car was in, when they all hustled for a big rest.
